S 2.5 Anti-Kick Panel

New for 2010

For the serious archer whom requires practice on paper targets, this panel will make it a breeze with regards to target placement. Also, the combination of both a flat face and Anti Arrow Kick Technology, the archer can expect an accurate depiction of shot placement.

This panel easily installs and is designed to be used on both the front and back of the target. To enhance the overall life of the target, we recommend that the target be shot on both sides, that is why we made it so easy to rotate.

New for 2010

Heavy duty S Series Stand
Adjustable from 18-19"
Weather resistant E Coating
Easily Installs

Compatible with:
S 2.5; S 2.0; S 1.5; S 1.5XL

S 2.0

AK Pro Series Range Target

If longevity, easy arrow removal, and arrow scoring is your primary focus, then this Anti Kick Pro Series does it all. The AK Pro Panel with flat face technology consistently produces an accurate recording of shot placement. Professional results and appearance will enhance each individual archers shooting experience and confidence.

48" x 48" x 21" 180 lbs

New
Adjustable shooting lane divider

New for 2010

New for 2010, this target is designed to meet the needs of ranges and archers whom desire the same Anti Kick Pro Technology at half the size.

24" x 48" x 21" 100 lbs

Anti-Kick Pro Panel

This stand alone Anti Kick Pro panel has an estimated life of approximately 75,000 shots from field tips and can be easily replaced when shot out

Tool less by design, this panel can be removed as easy as taking a picture off the wall. This allows ranges too quickly adjust to multiple shooting applications. If your range needs to address an uneven number of shots being taken and each target, then one can remove the Pro Panel and rotate it according to ones needs. Also, the panel can be removed all together and the target can be shot as a basic Anti kick target which prolongs the overall life of Pro Panel.

AK Series Range Target

Extremely durable with easy arrow removal and flat face technology would best way to describe The AK Series of range targets. Solid Anti Arrow Kick performance and a rewarding shooting experience can and will be the result.

48" x 48" x 19" 170 lbs

New
Adjustable shooting lane divider

New for 2010

New for 2010, this target is designed to meet the needs of ranges and archers whom desire the same Anti Kick Technology at half the size.

24" x 48" x 19" 95 lbs

Anti-Kick AK Panel

This removable Anti Kick panel with a completely flat face has an estimated life of approximately 75,000 shots from field tips and can be easily replaced when shot out.

It takes only 4 screws to remove this panel and replace or rotate with other targets. This allows ranges to quickly adjust to multiple shooting conditions. If your range needs to address an uneven number of shots being taken on each target, then one can remove the AK Panel and rotate it according to ones needs. The ability to rotate the panel from target to target will increase the life of each panel and hence extend the life your target.

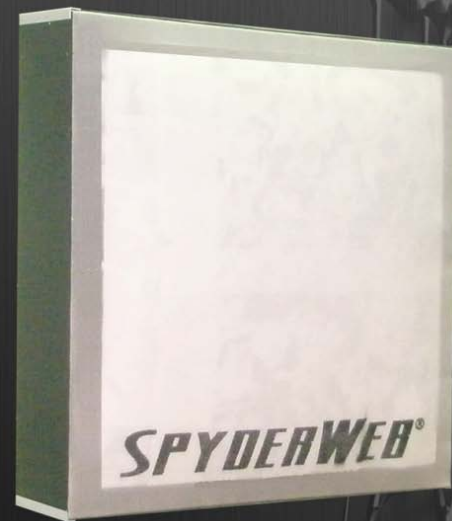

CS 48

Commercial Series Butt

This Commercial Series target measures 48" by 48" and is designed to be used primarily as a stopping butt for dealers, clubs, and individual archers. While this target does not feature either anti kick or flat face technology, one can expect to stop 100's of thousands of field tip arrows.

****This target face is not flat****

48" x 48" x 18" 150 lbs
